

152. (New)

The pogo-ski of claim 146, wherein said translational motion linking means includes a pneumatic linking tube with left and right connections to the left foot support and right foot support respectively.

REMARKS:

Responsive to the "Notice of Non-Compliant Amendment" mailed on June 28, 2006, this Revision to Amendment A provides a status identifier for each claim. Amendment A previously submitted should be considered unchanged except for the addition of these status identifiers to each claim. Applicant believes that the new independent claims are generic and that all the new claims are in condition for allowance, and applicant respectfully requests such allowance. Applicant is a private inventor and not an attorney, and requests constructive assistance from the Examiner if and as the Examiner sees fit.

Respectfully submitted,

Dr. Mithra M.K.V. Sankrithi
